### SKY GARDEN

Istanbul, Turkey

Waterfront

Sky Garden is a suspended garden in Ortaköy Square which is one of the most touristic and busiest squares in Istanbul. Putting a garden on the ground in such a congested area would reduce the pedestrian surface and make the square even more dense. Instead, the proposal hangs the garden while keeping the ground accessible. We used the existing slab in the square as a base for the new garden which will also serve as a canopy made of pots during sunny days.
